Project Summary:

Client:

Monkeys Token

The Monkeys Token is a decentralized community passionately supporting Elon Musk's Twitter List and all things primate-related within the meme king's repertoire. As the one and only Monkeys Tribe recognized across all social media and crypto trading platforms, we're leaving our mark on billboards worldwide. Our community-driven Monkey Business strategies will make us an unstoppable force that will inevitably take us to Mars. Come monkey around on socials with us as we interact with the man, the myth, the legend, Elon Musk!

Monkeys Token Provided The Following Smart Contracts for StaticAnalysis and DynamicAnalysis:

Monkeys Token Contract: 0x20CDECBF5d56870b4068a255580a58D068446c92

Disclaimer:

This is a limited report on our findings based on our analysis, in accordance with good industry practice as at the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts, the details of which are set out in this report. In order to get a full view of our analysis, it is crucial for you to read the full report. While we have done our best in conducting our analysis and producing this report, it is important to note that you should not rely on this report and cannot claim against us on the basis of what it says or doesn't say, or how we produced it, and it is important for you to conduct your own independent investigations before making any decisions. We go into more detail on this in the disclaimer below – please make sure to read it in full.

DISCLAIMER: By reading this report or any part of it, you agree to the terms of this disclaimer. If you do not agree to the terms, then please immediately cease reading this report, and delete and destroy any and all copies of this report downloaded and/or printed by you. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice. No one shall have any right to rely on the report or its contents, and Sky Pegasus LLC and its affiliates (including holding companies, shareholders, subsidiaries, employees, directors, officers and other representatives) (Sky Pegasus LLC) owe no duty of care towards you or any other person, nor does Sky Pegasus LLC make any warranty or representation to any person on the accuracy or completeness of the report. The report is provided "as is", without any conditions, warranties or other terms of any kind except as set out in this disclaimer, and Sky Pegasus LLC hereby excludes all representations, warranties, conditions and other terms (including, without limitation, the warranties implied by law of satisfactory quality, fitness for purpose and the use of reasonable care and skill) which, but for this clause, might have effect in relation to the report. Except and only to the extent that it is prohibited by law, Sky Pegasus LLC hereby excludes all liability and responsibility, and neither you nor any other person shall have any claim against Sky Pegasus LLC, for any amount or kind of loss or damage that may result to you or any other person (including without limitation, any direct, indirect, special, punitive, consequential or pure economic loss or damages, or any loss of income, profits, goodwill, data, contracts, use of money, or business interruption, and whether in delict, tort (including without limitation negligence), contract, breach of statutory duty, misrepresentation (whether innocent or negligent) or otherwise under any claim of any nature whatsoever in any jurisdiction) in any way arising from or connected with this report and the use, inability to use or the results of use of this report, and any reliance on this report.

DATE

13 MAY 2023

Audit Process:

The analysis of the security is purely based on the smart contracts alone. No applications or operations were reviewed for security. No product code has been reviewed.

This document details Sky Pegasus LLC' findings and recommended solutions. Our audit was performed in the weeks leading up to May 13, 2023. The contract we audited has already been deployed.

Static Analysis + Dynamic Analysis

Static analysis examines code to identify issues within the logic and techniques. This type of analysis addresses weaknesses in source code that might lead to vulnerabilities. Static analysis supports Development operations by creating an automated feedback loop. Static review can lead to false positives/negatives which Sky Pegasus confirms or denies with penetration testing. Static analysis is being used on Monkeys Token because it specifically identifies defects before you run a program (e.g, between coding and unit testing).

Dynamic analysis finds vulnerabilities in a runtime environment. Automated tools analyze the input and output of an application for potential threats like SQL injection. Tools can also search for other application-specific issues and analyze server configuration errors. The purpose of dynamic analysis is to analyze the program as an attacker would, looking for entry points and vulnerable sections during program execution. Hence, we create a well written suite of manual ran unit and regression tests.

|------------------------|--------|---------|--------|--------|
| Monkeys Token Contract | 100 | 100 | 100 | 100 |

High Severity Issues

No High Severity Issues were found.

Moderate Severity Issues

No Moderate Severity Issues were found.

Low Severity Issues

No Low Severity Issues were found.

Conclusion

No issues were found.

Based on the assessment, the smart contract code has been deemed to be highly secure. It has been written with great attention to detail, with all necessary validations and security measures carefully implemented. The code is performing very well, and there are no identified vulnerabilities that could allow unauthorized access to the contract's funds.

In addition, the code's performance and overall quality are excellent. The smart contract includes all the necessary validations, which have been tested and confirmed to be working as intended. This comprehensive approach to security and quality assurance ensures that the smart contract can be relied upon to function smoothly and securely, providing peace of mind for all parties involved.

Sky Pegasus LLC note:

Please check the disclaimer above and note - the report is provided 'as-is' and makes no statements or warranties whatsoever. The report is provided only for the contract mentioned in the report.
